- The Voting Process: YOU Have the Power!
- How a Bill Becomes Law
- Checks & Balances *Two Time Emmy Award Winner!*
- The Initiative Process
- A Day in the Life of a Candidate
- Day in the Life of the Legislature
- Day in the Life of the Secretary of State

Each "package" in The LegiSchool Video Curriculum Library consists of materials that focus on a particular bill that was introduced in a recent legislative session. The bills selected for the library are those we hope will stimulate controversy and dialogue among high school students. Each package contains the following items:

- Video tape footage of the committee hearings and floor debates that took place as the bill moved through the legislature.
- Press clippings, editorials, and articles on the bill and related issues.
- Copies of official documents including the text of the bill, the bill history, the committee analyses, and a record of the all votes takenon the bill.
- Curriculum strategies written by high school social studies teachers.
